

Samsung SCH-R355C Keyboard Replacement

Replace the keyboard of your Samsung SCH-R355C.

Written By: Lorena Valdes

INTRODUCTION

Here we will teach you how to pull apart the Samsung SCH-R355C and replace the keyboard membrane.

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Keyboard

- Pop the back off by pulling down on it.

Step 2

- Take the battery out of the phone.

Step 3

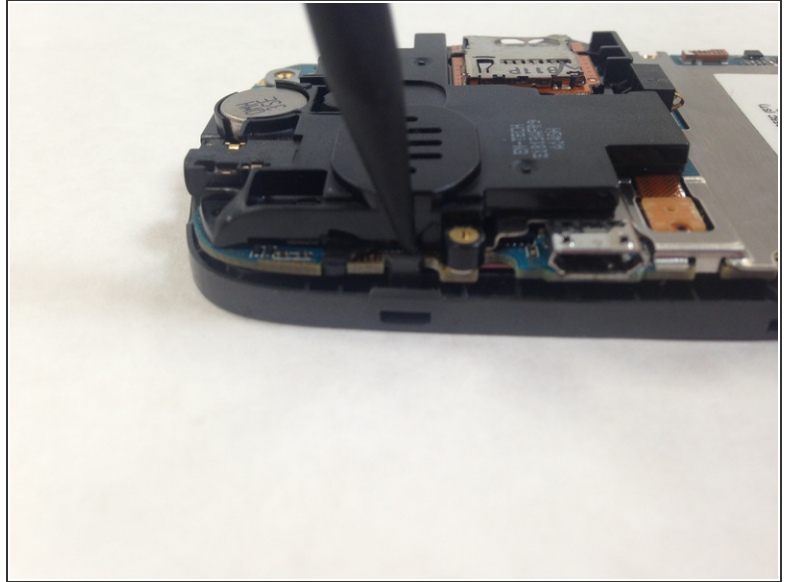

- Unscrew all 6 of the 4 mm back screws using a very small "00" Phillips screwdriver

Step 4

- Push on the silver part of the phone, under where the battery should be. Be sure to hold onto the back of the case, as that is where the case will break off of.

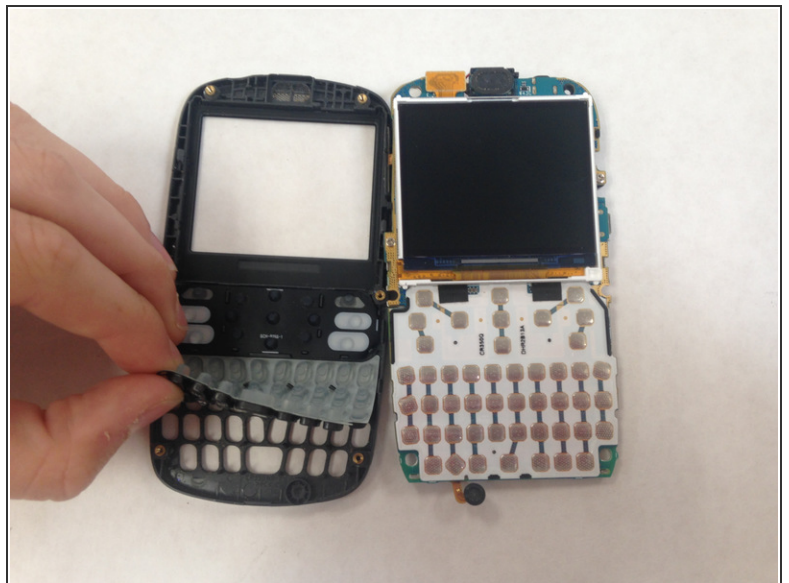

Step 5

- Pry the friction holder on the top left hand side of the motherboard away. This will release the motherboard.

⚠ Don't rip the cord that attaches the motherboard to the case when you bring the motherboard up or else you will render the phone unusable.

Step 6

- Lift the keyboard membrane from the bottom to take it out and replace it.

To reassemble your device, follow these instructions in reverse order.
